PouchMark™

DIRECT-TO-POUCH VARIABLE PRINTING

▶ FLOW™

## CONTINUOUS POUCH-PRINTING SYSTEMS

FLOW 2000

Our blazing fast TTO-mounted friction-feeder/conveyor system, the FLOW 2000 prints a 7-inch-tall stack of flat pouches (or cards) at up to 180 packs per minute. And not just simple text or date codes – 1D, 2D and GS1 barcodes; logos and icons; incremental and database-fed variable codes...all at crisp and clear 300dpi resolution.

FLOW 3000

Designed to meet the demands of multiple industries for an automatic feeding-printing system to print variable information directly to pre-made zippered and gusseted pouches, the FLOW 3000 is as close as you can get to a perfect solution. Print everything from nutrition panels, compliance data, production codes, logos, text and virtually any type of barcode directly onto pre-formed pouches, eliminating the need for pre-printed, hand- or machine-applied labels.
VERSA™
MODULAR TABLE TOP TTO

Now manufacturers and specialty retailers alike (coffee roasters, sweets shops, bakeries, etc.) can custom-print and brand their own bags, pouches and cards on-demand, without going to the expense and trouble of buying custom-printed labels to apply by hand.

Just choose a template from the touchscreen controller (made with the user-friendly Windows-based software included) and press the integrated foot pedal for hands-free, perfect custom printing every time! **Logos, product names, ingredients, barcodes, can all be designed into one template and printed at once.**

In addition, VERSA's modular design allows the user to raise the printer and rubber print pad above the base, in order to open and slide more difficult multi-layered zippered or gusseted bags over the pad for best print quality.

ProCode™
PROFESSIONAL

*PouchMark's full-featured coding design software, ProCode™ Professional, is included **free-of-charge** with every PouchMark® TTO System.*

Our feature-rich, user-friendly, **Windows®-based software** enables you to easily create everything you'll need in your package coding environment. From standard **expiration dates and lot codes**, to **linear and 2-dimensional barcodes**, to **high-resolution logos and graphics**, ProCode™ does it all.

Although ProCode™ is a proprietary PouchMark® software program, multiple drivers and solutions are available to enable users to interface with their preferred coding and label design software.

FLEX™ TTR

A SUPERIOR LINE OF RIBBONS FOR TTO PRINTERS

FLEX PREMIUM DURABLE WAX-RESIN RIBBON

The clear winner in its class, this premium "General Purpose" TTO ribbon is your high quality, cost-effective choice for traditional flexible packaging applications. Crisp text, codes and graphics with very good smudge and scratch resistance.
